

Children's Continuous Improvement Plan 2021-24

be the change

for children and young people in Croydon

#bethechangecroydon

Draft June 2021

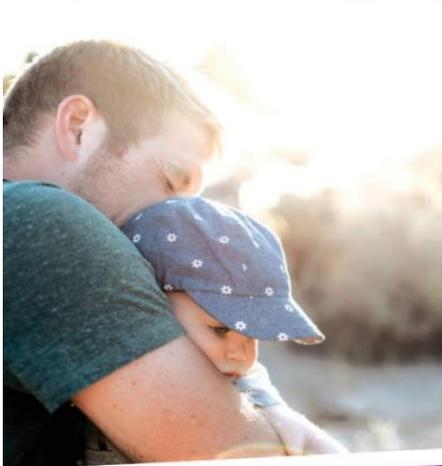

OUR DESTINATION

OUR PRINCIPLES

OUR PRACTICE
FRAMEWORK

Delivering for Croydon

CROYDON
www.croydon.gov.uk

Introduction

In the inspection report of Croydon's children's social care services published in March 2020 Ofsted recognised that services for children in need of help and protection were now good, and services for children in care and care leavers were improving well. Overall children's social care services were judged as good.

Croydon's Challenge

Croydon Council faces serious governance, financial and operational challenges. Resolving this crisis requires one of the most significant change programmes in local government. The service transformation that lifted children's services from an inadequate to good was underpinned by significant investment, and whilst some of the additional investment has been removed children's services are still higher cost compared to other council services judged as good overall.

We must now review how we deliver children's services in Croydon to reduce the cost and work within the council's available resources whilst retaining the quality and effectiveness that children and families in Croydon deserve.

Planning for continued improvement

This Continuous Improvement Plan 2021-24 brings together:

- The savings and growth planned over 2021-24 across early help, children's social care and education as the departmental contribution to the Council's Medium Term Finance Strategy (MTFS) – Section 1.
- The practice improvement priorities for early help and children's social care including actions to address the recommendations in the 2020 Ofsted inspection – Section 2.

The majority of the MTFS savings impact on the practice improvement priorities, and there is a direct read across for many of the priorities and actions. However, there are areas that are specific to each section. More details on the background and rationale for the MTFS savings are set out in the CFE Delivery Plan, March 2021.¹

The plan will help the council achieve the overall reduction in spend required and put children's services in Croydon on a sustainable financial footing. We know that we cannot afford to be complacent to sustain the improvements made and build on them. We also know

¹ Croydon CFE Delivery Plan, February 2021 <https://democracy.croydon.gov.uk/documents/s28951/Appendix%201%20-Draft%20CFE%20Delivery%20Plan.pdf>

we will need to adjust to emerging needs and themes including the longer term effects of the Covid-19 Pandemic on our children and young people.

Our values, our principles

throughout the planning and making changes across education and children's social care we aim to sustain the service offer to children, families and schools at reduced cost whilst continuing to meet statutory responsibilities. We will retain our commitment to the following:

Our Values

Putting children at the centre of all that we do

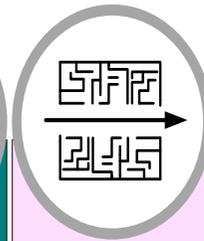

Building and sustaining trusting relationships

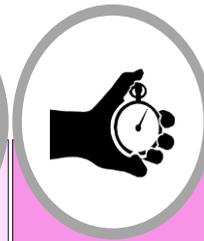

Doing things *with* children and their families not *to* them and enabling independence

Working with the whole family, the school and community

Making the journey of the child and family as simple as possible

Delivering services as early as possible

Our principles

- We will support families to keep children and young people safely at home, and make sound decisions to bring children into our care when we need to;
- We will develop local provision so more children with SEND attend Croydon schools, keeping close to their friends and community and relieving the pressure on the Dedicated Schools Grant;
- We will get the best possible value for the Croydon pound for placements and packages of care for children and young people, commissioning for cost and quality;
- We will continuously challenge ourselves to improve efficiency and reduce the cost of services, improving the business systems and processes needed to enable us to understand spend and accurately benchmark ourselves against others locally, regionally and nationally.

Oversight and Review

The Continuous Children's Improvement Board (CCIB), through its partnership lens with service experts and an independent Chair, is well placed to monitor sustained practice improvements whilst also providing constructive scrutiny on the impact of the savings, keeping at the heart of discussions the need to ensure vulnerable children and young people are kept safe.

The Scrutiny Children and Young People sub-Committee has a vital role in scrutinising the duties and functions of children's social care, and through its public meetings is able to bring these issues to a wide audience.

It is proposed that the Continuous Improvement Plan is reviewed annually by the CCIB. Quarterly reports on progress against the actions in both sections of the plan will be reported to and challenged by the Scrutiny Children and Young People sub-Committee to provide robust oversight. Work will continue to ensure the work programmes and forward plans of the two formal meetings are co-ordinated and aligned to provide whole-system assurance on the progress and impact of the plan.

Delivery targets

The Croydon Renewal Improvement Plan performance framework is being developed to include targets for each of the MTFs savings. As these are finalised and agreed they will be included in this plan to ensure there is a single version of the truth for delivery.

1. Medium Term Financial Strategy Savings and Growth

This section of the plan focuses on key projects in the Croydon Renewal Plan to reduce spend and live within our means whilst sustaining improvements in children’s services to deliver the Medium Term Financial Strategy savings, as set out in the CFE Delivery Plan

1	Reduce Early Help Project Manager: Iain Low	MTFS Ref: CFE SAV 02								
Project description		Savings identified £000s								
<ul style="list-style-type: none"> • Work with partners to identify opportunities to enhance service delivery through multi-agency working, use of partners' settings and building on locality services • Reduce the Early Help offer to a targeted service that continues to provide step down from statutory CSC and contribute with our partners towards early intervention where this will prevent, delay or reduce the need for statutory services, and where not to do so would lead to a direct increase in cost. • Reconfigure as a centralised integrated offer operating with a local footprint, retaining current functions on a reduced footprint e.g. family key worker interventions, parenting workers, domestic abuse and substance misuse specialists. 		<table border="1"> <tr> <td style="background-color: #800080; color: white;">2021/22</td> <td style="background-color: #800080; color: white;">2022/23</td> <td style="background-color: #800080; color: white;">2023/24</td> </tr> <tr> <td style="text-align: center;">424</td> <td style="text-align: center;">185</td> <td style="text-align: center;">0</td> </tr> </table>			2021/22	2022/23	2023/24	424	185	0
		2021/22	2022/23	2023/24						
424	185	0								
		Croydon Renewal Plan performance measures <ul style="list-style-type: none"> • Percentage of Early Help cases closed that were stepped up to CSC (EH 9) • Percentage of CSC referrals that were stepped down from CSC into Early Help (EH 25)

4.3	Undertake in-depth analysis on a case by case basis to get a current list of ARE CYP for April,	JM	May 21	complete
4.4	Work to reduce the amount spent on accommodation, reducing the number of houses paid for by bringing places together, and reducing the void down to 15%.	JM and SC	April 21 and ongoing	In progress

5. Improving Efficiency in the Practice System Project Manager: Roisin Madden	MTFS Ref: CFE SAV 07						
Project description <ul style="list-style-type: none"> To tackle the legacy of poor practice additional staff were recruited to reduce social workers' caseloads taking these to below both London and national averages. Focused work to improve the quality of day to day practice was effective, as noted in the 2020 inspection. Caseloads will now be gradually increased over 2021-23 to an average of 17. Heads of service will manage and monitor the increase closely to balance continuity of care for children and their families and manageable workloads for individual staff with the need to address the financial challenge for the service. Assistant team managers were appointed to larger teams of social workers to increase management direction and grip on casework and support the introduction of the systemic practice model across the whole service. As the service moves into an improved steady state this cohort will be reconfigured over 2022-24. The timing will ensure that the increase in caseloads is carefully supported and managed at the front line, and that risks are appropriately identified and held 	Savings identified £000s <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th style="text-align: center;"><i>2021/22</i></th> <th style="text-align: center;"><i>2022/23</i></th> <th style="text-align: center;"><i>2023/24</i></th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">1,065</td> <td style="text-align: center;">1,450</td> <td style="text-align: center;">385</td> </tr> </tbody> </table> Croydon Renewal Plan performance measure <ul style="list-style-type: none"> Average Caseload by worker- by service area 	<i>2021/22</i>	<i>2022/23</i>	<i>2023/24</i>	1,065	1,450	385

2. Practice priorities – Early Help & Children’s Social Care

This section of the plan focuses on the priorities for improvement in early help and children’s social care practice. It addresses the recommendations of the ILACS inspection March 2020 as well as improvement priorities identified through the Windows into Practice cycle of performance management and quality assurance. Progress against the priorities will be reviewed as part of Windows into Practice. Priorities and key activities will be kept under review and adjusted, for example as a result of focused visits from Ofsted or external reviews commissioned by the department.

Ref	Priorities and key activity	Delivered through	Lead (s)	By when	Success measures impact for children, young people and families
1	Identify and reduce risks to vulnerable children & young people				
1.1	<p>Responses to homeless 16 & 17 year olds Improve our response to homeless 16 & 17 year olds including assessment of their needs and emergency housing (section 20 and section 17) [Ofsted ILACS recommendation]</p> <ul style="list-style-type: none"> • Commission appropriate emergency and longer term accommodation for 16 & 17 year olds • Work with young people to consider how they want to lead on their CiN Reviews when offered housing through S17 • Test the impact of practice through dip sampling/audit activity 	<p>✓ Access, Support and Intervention Service Plan</p>	IL	30/09/21	16 & 17 year olds at risk of becoming homeless are supported to stay at home safely. Where this can't happen we work with young people to secure a safe home
1.2	<p>Responses to children in care at risk of exploitation or going missing. 1.2.1 Develop and implement a whole service approach to improve the response for children in care at risk of exploitation or going missing. To include:</p> <ul style="list-style-type: none"> • Embedding the Contextual Safeguarding Framework and Risk Exploitation tool 	<p>✓ Adolescent support team plan & service plans for SWwF</p>	SH	30/09/21	Children and young people in care who may be at risk of exploitation benefit from robust risk assessments and action planning to help keep them safe
