Responsive repairs commentary

OVERALL PERFORMANCE: Our Q1 performance is improving across a numebr for KPI's. Wates, Mears and K&T Heating have been working collaboratively with us to stabilise the repairs service ahead of the first year anniversary. Our focus has been to clear overdue repairs during Qtr 1, reduce the work in progress to 2 weeks of work, which will help us achieve the average days to complete repairs KPI target (12 days) and also supports our preparations for the service over autumn/winter when we know repair demand will increase. We have completed our data cleansing exercise and we are currently reviewing the NEC system to intorduce additional reporting for post inspections data and dashboards for management colleagues. We will be able to report on post inspections data in the QTR 2 update.

At the time of reporting, we are finalising our data cleanse for K&T Heating KPIs and as a result, we are unable to report on June's KPI performance. A verbal update will be provided at the meeting and this information will be added to Qtr 2 report.

CUSTOMER SATISFACTION

Acuity continue to undertake satisfaction surveys for repair completions. The data for June confirms 90% customers are satisfied with the standard of the repair; 92% were happy that the contractor worked in a clean and tidy manner and 88% were satisfied that the contractor arrived on the date and time agreed.

DAMP AND MOULD

As we expect Awabbs Law to be introduced in the next few months, in preparation for this, we have undetaken a review of our approach to Damp and Mould repairs including a review of the policy. The updated policy which includes a cler service offer was shared with the reading panel and their comments/feedback have been incorporated into the new Policy which will shortly be published on our website. We have also arranged damp and mould training with a specialist provider for our surveyors/inspectors which will take palce in september/october, and we intend to roll training out to wider teams across the housing department in Qtr 3.

Compliance

We are required to provide the Regulator with yearly data on the following building safety measures.

| | | | Q1 24/25 | |
|-----------|-----------------------------------|----------|----------|---|
| Indicator | Description | Q1 24/25 | % met | Commentary |
| BS01 | Gas safety checks | | | |
| | % homes that have had all the | 12633 / | | We have 23 overdue gas checks, 4 of which are in the legal process. In |
| | necessary gas safety checks | 12656 | 99.81% | the remaining cases we are progressing access with residents. |
| BS02 | Fire safety checks | | | |
| | % homes in buildings that have | | | A new Fire Risk Assessment contract commenced on 1 January 2024 and |
| | had all the necessary fire risk | | | we are working collaboratively with the contractor to ensure |
| | assessments (FRA) | 765/765 | 100% | compliance remains at 100% |
| BS03 | Asbestos safety checks | | | |
| | % homes in buildings that have | | | We are working with our contractor Diverside who are conducting |
| | had all the necessary asbestos | | | We are working with our contractor, Riverside, who are conducting |
| | management surveys or re- | | | condition surveys at all relevant buildings. We aim to sustain compliance |
| | inspections | 731/731 | 100% | at 100%. |
| BS04 | Water safety checks | | | |
| | % homes that have had all the | | | |
| | necessary legionella risk | | | Compliance remains at 100% |
| | assessments | 166 | 100% | |
| BS05 | Lift safety checks | | | |
| | % homes in buildings where the | | | Compliance remains at 1000/. Two lifts are gurrently being refurbished |
| | communal passenger lifts have had | 104/104 | 100% | Compliance remains at 100%. Two lifts are currently being refurbished |
| | all the necessary safety checks | | | in Gillet Road/Garnet Road. |
| | Electrical checks | | | |
| | Communal EICR | | | We have seen a reduction in domestic EICR compliance as a result of no |
| | Domestic EICR | | 100% | access, however, we are working with tenancy management to address |
| | (EICR = electrical installation | | 94.07% | this an expect compliance to improve through the remainder of the |
| | compliance record) | | | year. |

Capital delivery

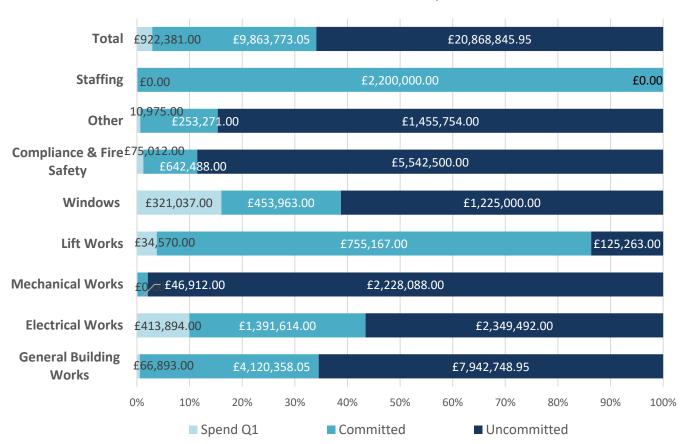

The capital budget is used for planned improvements/investments to housing stock

24/25 total capital program budget

£31,655,000

| Windows | £2,000,000 | £321,037.00 | £453,963.00 | £1,225,000.00 |
| Compliance & Fire Safety | £6,260,000 | £75,012.00 | £642,488.00 | £5,542,500.00 |
| Other | £1,720,000 | 10,975.00 | £253,271.00 | £1,455,754.00 |
| Staffing | £2,200,000 | £0.00 | £2,200,000.00 | £0.00 |
| Total | £31,655,000 | £922,381.00 | £9,863,773.05 | £20,868,845.95 |

Capital delivery, by category - budget spent/committed/remaining at the end of Q1 24/25

Cyclical works Total budget for 24/25: £1,243,000

The cyclical budget comes from the revenue budget. It is monitored and used separately for different works (health, safety and compliance).

Capital delivery commentary

Of the £31.5m capital budget, just under a third has been committed which is line with expecations, and just under £1m has been spent by the end of the first quarter.

The full year work programme has been issued to contractors and we expect our contractors to deliver the full programme by year end.

Support Services and Funds

| Type of support | No. residents supported 23/24 | Value of support 23/24 | No. residents supported YTD 24/25 | 24/25 |
|--|--|------------------------|--|----------|
| Hardship Fund: one-off payment of £500 for residents suffering with the cost of living crisis who have no other means to welfare support. | 119 | £59,500 | 43 | £21,500 |
| Household Support Fund: Assistance for anyone who's vulnerable, in crisis or hardship, and cannot pay for essential items such as food, gas and electricity. | 280 | £192,239 | 60 | £57,883 |
| Discretionary Housing Payments : A payment issued at the discretion of the council to help towards housing costs for tenants entitled to Housing Benefit or Universal Credit. | 244 | £525,000 | 73 | £178,801 |
| Welfare Advice Service : In-house team who specialise in assisting tenants to maximise their incomes through full utilisation of all Welfare Benefits they are entitled to claim. | 641 | £1,661,264 | 218 | £462,136 |
| Total | 1284 | £2,438,003 | 394 | £720,320 |

Income commentary

This quarter we have seen a slight decrease in collection rates to 95.6% in Q1, while the arrears % has reduced by 0.58%. This decrease in collection rate in large part to the reporting period of June not including any payments scheduled for the first of the month. Had these payments been included, it would have accounted for approx. £400K. This amount is comprised mainly of payments from Universal Credit, Standing Orders and Direct Debits. The effect of this was demonstrated in the collection rate reported for the following month, which is 97.6% for July. It is not unusual for Collection rates at the start of the financial year to dip as tenants update their Universal credit and standing order payment amounts to meet the new rents, which have increased by 7.7%. Approx. 30% of our monthly income is collected in this way.

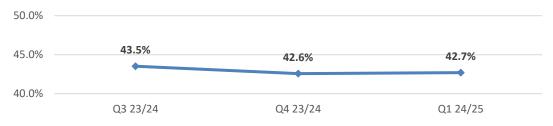

An action plan for improvements in the service during Q2 has been created, including the following activities:

- Enhancements to our priority audits to include suggested actions for officers. Cases are now presented to officers with an explanation for why they require attention and what action is suggested.
- Enhanced performance management tools, including weekly audits for managers to check the quantity and quality of the actions taken by officers.
- Closer management of our high level arrears cases. At present, approx. 4% of our highest rent arrear cases account for approx. 40% of arrears. The team continue to work through our highest arrears cases and have resolved approx. £200K in tenant debt in Q1. This has involved enforcement action and intensive support from officers.

% garages not let, by quarter

Garages weekly rent roll and void loss, by quarter

Garages commentary

- We continue to work closely with repairs team to address the number of void garages
 that require inspection. Last year we identified many void garages requiring lock
 changes. Repairs have raised orders for 189 lock changes with Wates and Mears to
 complete as a programme of works. This is now complete and inspections are underway.
 Of these, approx. 50 garages have been returned to the team. These are to be let before
 the end of August.
- The team are now using mail merges to streamline the process for sending out early stage garage arrears letters.
- We will continue to report and monitor progress as part of the Task and Finish Group.

Void turnaround

The average turnaround calculation looks at the time it takes the council to let HRA (Housing Revenue Account) general needs (GN) and sheltered vacant properties. It includes all calendar days from vacation date to tenancy start date, for standard (minor works) lets and calendar days from ready to let' to tenancy start date for major works lets

The key to key figure includes all lets for the period and all days, from void date to let date.

Number of void properties, over time

Voids commentary

During quarter one, we have driven down the number of void properties. We continue to work closely with allocations to pre allocate properties to assist in reducing the number of properties left empty after works have been carried out.

In a number of instances, enhanced works i.e. decorations have taken place to allow us to increase the opportunity of letting properties, which had proved to be hard to let.

We continue to take opportunities to convert properties to allow us to create large family accommodation ie four bedroom properties. This has allowed us to provide permanent homes for residents who were previously living in tempoary accommodation.

The Northgate, (Housing Management System) Technical Project Manager has held four initial meetings with key voids management service areas regarding the Void process redesign and reporting, which is due to go live in October 2024. Meetings will be concluded in August.

During quarter one we were able to decant the final tenant who was required to be moved to allow us to empty the first Regina Road block.

Survey actions and outcomes

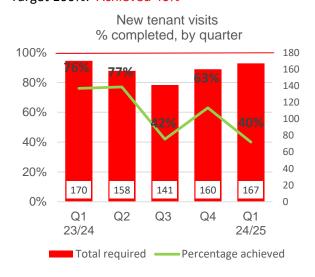

- Survey progress and results are shared regularly with the void strategic group
- All repairs related comments are forwarded to the repairs voids team for investigation and additional repair work is instigated if required
- When inspecting properties, surveyors focus on issues that have been raised frequently, in recent months this has included heating/plumbing issues and doors/windows
- Other issues raised are forwarded to the relevant teams such as income and tenancy and suggestions are forwarded to the relevant manager
- The sign up pack has been reviewed by the lettings team and now has a front cover. Contact details are reviewed regularly
- Residents' comments have helped inform the revised lettable standard which is now being included in sign
 up packs and with the offer when sent by Allocations. The latest results suggest this is now being seen more
- Residents interested in further involvement are sent more information and invited to register their details.

Tenancy commentary

New tenant visits & occupancy checks

All officers now fully trained on entering Tenancy processes, New Tenant Visits and Occupancy Checks into NEC, the housing database. Although there are 45 cases which require a second New Tenant visit there are 55 cases that have not received the first visit and these visits are to take place during Q2. A reminder to staff that all new visits should occur within the first 6 weeks of start of Tenancy will be reiterated at the next Tenancy Team meeting in August 2024. In saying this, there is currently an Audit taking place until end of August 2024 on how Tenancy handle New Tenant Visits and the outcome will help to shape and tighten up the process.

Occupancy check form using Housemark Photobook is currently in test mode with 4 officers. We are hoping that this will cut down on the amount of paperwork involved in carrying out Occupancy Checks, as using Housemark will mean that the form can be directly uploaded into Tenancy File including all the ID documentation for the resident.

In the meantime, in order to ensure the correct number of Occupancy Checks are being carried out we have split the teams into two, so that we have officers who carry out the visits and officers in the back office who updating NEC following visits to ensure that the outcome of visits are recorded. This will take place until the end of August 2024 to get back on track with Occupancy Checks.

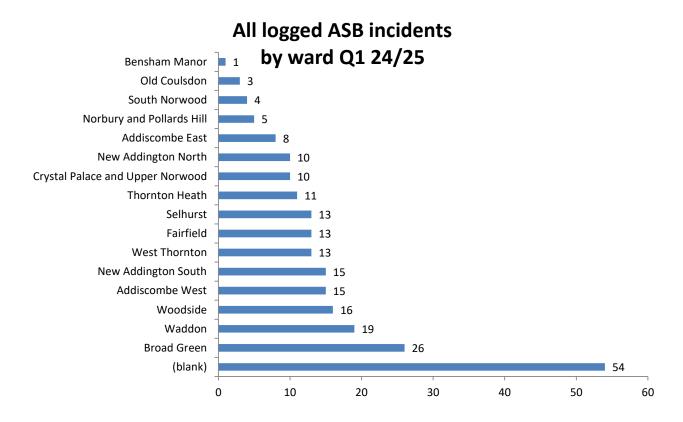

In addition, we have enhanced management arrangements by using Mondays to focus on increased performance.

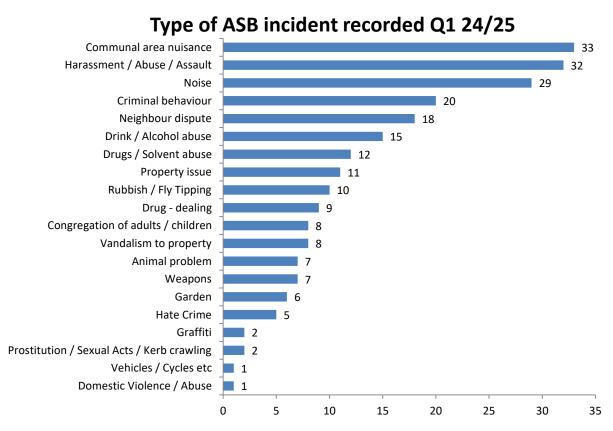

Roadshows

Eight roadshows took place over a three week period in May. Officers from various teams across the housing service and representatives from our three responsive repairs contractors also participated in the events.

Residents were able to have their questions on a range of issue responded to and officers from our repairs contact centre raised jobs orders and issued job numbers and appointments to residents at the events.

Further roadshows will take place in August, at the next PMG we will provide details on surveys carried out to get the views of residents about opportunities to get involved and the barriers the Council need to address to increase participation.

| Cases opened/reopened | 33 | 27 | 17 | 32 | 57 |

ASB commentary

We have further improved the monitoring of ASB by the introduction of an additional manager to oversee cases monthly with each tenancy officer, these monthly in depth reviews are in addition to the review of cases/actions within 1-1s.

An further enhancements have been made to case management in Caseworks, and this has shown a slight increase in satisfaction with the ASB has been handled. We hope to see even more satisfaction reported in the coming quarters.

Tenant Satisfaction Measures (TSM) survey results

Q1 24/25: 248 telephone surveys completed

How we are using survey feedback:

- * Collating Tenant Satisfaction Measures to provide yearly data to the Regulator
- * Urgent issues forwarded when the survey is conducted mainly repairs/damp & mould/tenancy
- * Individual maintenace issues raised are forwarded to repairs, damp & mould and and assets
- * Individual comments regarding caretaking, tenancy & ASB are shared with operational managers
- * Findings have been used to inform locations of roadshows this year
- * New contact details and dead numbers are used to update central records
- * Key questions included in corporate KPIs and HIP (housing improvement plan) measures
- * Results shared with residents via PMG and Open House newsletter each quarter
- * HouseMark benchmarking

Keeping Properties in Good Repair

Q1 24 25

| Has Croydon Council carried out a repair to your home in the last 12 months? Yes | 64% |
|---|-------------|
| If yesSatisfaction with the overall repairs service over the last 12 months | 53 % |
| If yesSatisfaction with the time taken to complete your most recent repair | 51% |
| Asked of all General satisfaction with the way we deal with repairs and maintenance? | 51% |
| Satisfaction that we provide a home that is well maintained | 56% |
| Satisfaction that we provide a home that is safe (condition of the property/building you live in) | 62 % |

Well maintained Safe home (251) Repairs - Last 12 Time taken - Last Repairs - Overall home (264) months (164) repair (164) satisfaction (255)

^{*}Safe home changed from "safe and secure" to "well maintained and safe" in Q1 22/23 and to just "safe" in Q3 22/23.

Summary of open-ended comments relating to home not being well maintained/safe

136 comments were received and the majority were in respect of outstanding repairs and the timetaken to complete these. 29% of comments were in respect of damp and mould in properties. 10% of comments were in respect of communal door security

Summary of open-ended comments relating to repairs

51% of tenants were satisfied with the repairs & maintenance service; those who were not were asked why. Of 135 comments the most frequent were around the timescales to complete repairs (40%) and forgotten/outstanding repairs (30%). There were various comments relating to appointment issues/the need for repeated reporting/ease of reporting and general comms.

Responsible Neighbourhood Management

Q1 24 25

Do you live in a building with communal areas, either inside or outside, that

Croydon Council housing services is responsible for maintaining? Yes

62%

If yes...Satisfaction that we keep these communal areas clean and well-maintained?

44%

Asked of all...Satisfaction that we make a positive contribution to your neighbourhood?

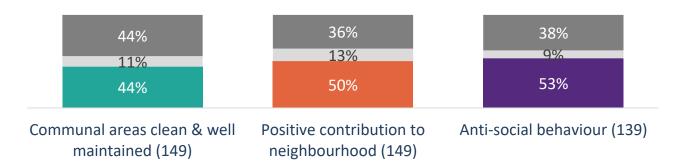

50%

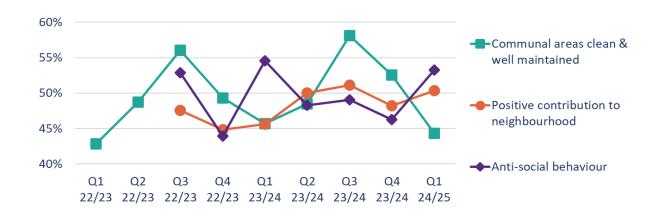

Asked of all...Satisfaction with our approach to handling anti-social behaviour?

53%

Asked of all...Have you reported ASB to housing in the last 12 months?

14%

Summary of open-ended comments relating to communal areas

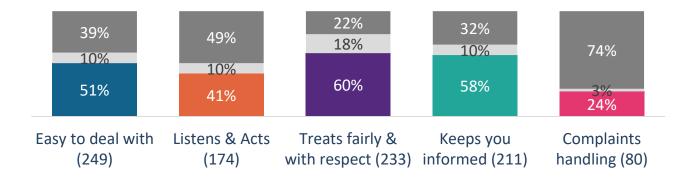

83 tenants provided reasons for dissatisfaction with their communal areas. The most common reason given was the frequency of the cleaning service, followed by dissatisfaction with grass cutting. There were several comments about the maintenance of communal areas and entry doors, as well as issues with rubbish storage areas.

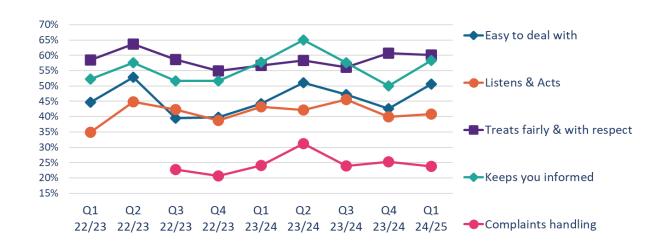

^{*}Communal areas changed from "clean, <u>safe</u> and well maintained" to just "clean and well maintained" in Q3 22/23.

Respectful & Helpful Engagement

Q1 24 25

| Satisfaction that we are easy to deal with | 51% |
|--|-------------|
| Satisfaction that we listens to your views and acts upon them | 41% |
| Satisfaction that we keep you informed about things that matter to you | 58% |
| Agreeing that 'Croydon Council Housing services treats me fairly and with respect'? | 60 % |
| Have you made a complaint to Croydon Council Housing services in the last 12 months? Yes | 33% |
| If yesSatisfaction with our approach to complaints handling | 24% |

Summary of open-ended comments relating to 'Listens & Acts' and 'Keeps informed'

Our customer service open-ended question changed this quarter. 116 tenants provided information. We had a variety of responses, some is service specific, relating to e.g. repairs or ASB. Several around genera lack of response, not hearing back, complaints not dealt with and having to chase. Also some comments relating to not being contacted by us proactively and not getting newsletters.

Tenant Satisfaction Measures (TSM) Summary

Measures set by and provided to the Regulator of Social Housing (RSH) annually from June 24.

This data is included in our HouseMark return for benchmarking with other landlords

- Measured by tenant perception survey (LBC data source: quarterly phone survey c250 tenants)
 - Measured by landlord
- * HouseMark Benchmarking 23/24 year-end median for London councils/ALMOs.
